PREFACE.

To business men, absorbed in their own concerns, and habitually engaged in a tread-mill round of duties, it is sometimes refreshing to extend the circle of thought and observation, and especially interesting is it to practical men, to survey the intricate and curious machinery by which the world is growing wiser, better and wealthier. So intent is the business man of to-day upon the pursuit of his own, that he scarcely knows how the great world is surging on by his side. With these ideas in his mind, the compiler imagined that others might feel to some extent the same interest which he attaches to a faithful daguerreotyping of Old Hillsborough, in her social, physical, educational and moral relations. How successfully it has been accomplished, in much haste, amid other pressing duties, is left with the clemency and just judgment of the public for decision.

OUR COUNTY :—ITS ORIGIN AND PROGRESS.

One hundred years ago the settlements in the territory now known as Hillsborough were scantily peopled, though some of them had been occupied by a few hardy settlers for a considerable length of time, the first grants of land to individuals having been made two centuries since. The old township of Dunstable, comprising the present towns of Nashua, Nashville, Hollis, Hudson, Litchfield, and Merrimack, were settled early ; New Ipswich and Peterborough, one century ago, were attractive settlements ; Bedford and Amherst, known as Souhegan East and Souhegan West, with New Boston, and Society Land, or the Masonian Proprietors' Lands, including Antrim, Hancock, Bennington, Deering, and parts of Francestown and Greenfield, complete the list of the most prominent settlements. The population of this territory was but a moiety of the present numbers.

Its soil is light and sterile, compared with the fertility of other sections of the country ; the southern portion is especially sandy and unproductive, a stint-

ed pine being mainly the original growth; the northern and western portions have generally a stronger and deeper soil, of sandy loam, or clay, yielding with assiduous labor good crops of corn, potatoes, and most of the cereal grains. The north of the County is particularly adapted to the growth of wheat, and the south to the culture of rye. Much attention has recently been given, in the vicinity of large towns, to the cultivation of garden vegetables and fruit, and the production of milk, which is already proving a source of much profit. The notion that the fruit market may be easily glutted is wearing away, as people are just beginning to discover its value and indispensable necessity as an article of food, and to learn that its present demand is but a tithe of what it will be when its price shall be a trifle lower.

Its rock is principally granite, of various textures and qualities, some of it superior for building purposes. Its growth is various, consisting of several kinds of pine, oak and birch, with hemlock, spruce, maple, beech, chestnut, cedar, walnut, elm, ash, and a number of other less common kinds.

Whatever poverty of soil Hillsborough may possess, scarcely a County in the union can be richer in natural manufacturing resources. The Merrimack, at Manchester alone, affords facilities scarcely inferior to those at Lowell, while at Goff's Falls and other places are unoccupied privileges of more or less value. The Nashua runs 50,000 cotton spindles, with much other machinery. The Souhegan, flow-

tre of the County, has valuable privileges at every mile. The Contoocook turns many a mill in Peterborough, as well as in manufacturing villages in Merrimaek County. The Piscataquog, rising in the centre of the County, makes itself useful in all its course through New Boston, Goffstown and Bedford. Numerous tributaries of these main streams, everywhere leaping from the hills, turn hundreds of wheels, and add to the general prosperity. There were in the County, in 1850, 379 manufacturing establishments producing more than \$500 each yearly. The value of factories and machinery was \$3,680,-275 ; of mills and carding machines, \$159,436. The importance of manufactures may be gleaned from the fact that the population has increased more than 33 per cent. in the last ten years, mainly through manufacturing ; and the value of landed estate in equal proportion.

It may be interesting to note a few of the general statistics of valuation, based upon the official returns of 1852. The value of land is \$12,500,599, equal to the government price of 10,000,471 acres of wild land, or 15,625 square miles, or a territory nearly twice as large as the whole State ; the value of horses, \$352,144, 6,254 in number, averaging \$56-46 each ; neat stock, \$715,413, 31,507 in number, averaging \$22 71 ; sheep, \$37,042, 18,123 in number, averaging \$2 04 ; carriages, \$37,700 ; corporation stocks, \$704,668 ; money taxed, \$993,226 ; stock in trade, \$1,342,068 ; locks and canals, \$203,-

900 ; total of inventories exclusive of railroads, \$23,709,611 ; railroad property, \$1,582,509. Were this equally divided, each man, woman and child in the County would be taxed for \$435—probably fully equal to the average for the whole United States.

This County can boast many names distinguished in their country's history, names that have adorned the halls of State and shed glory upon the field,—such as Gen. Stark, the hero of Bennington—Gen. Miller, whose "I'll try, sir," is immortal—the valiant Mc'Neil—Matthew Thornton, a signer of the Great Declaration—Franklin Pierce, our popular President, with many others that might be named.

EDUCATION.

Within the past ten years much has been done for the advancement of popular education in the County. A healthier public sentiment and a better appreciation of the best means of improvement are now in existence ; better teachers are employed and better pay given ; school houses have been improved, and High Schools instituted. A High School house has just been finished in Nashua, in a rich style of architecture, and in an admirable location, which will be inferior, in no respect, to any school house in the State. Its cost is about \$13,000. A good High School is in progress in Manchester, another in

Nashville ; and Amherst is about to institute another. Also, Milford and Pelham.

There are many good Academies and Select Schools, which will be noticed under another head. Prominent among these, in value of instruction and extent of patronage, are the Merrimack Normal Institute, the New Ipswich Appleton Academy, the Appleton Academy at Mont Vernon, and the Frankestown Academy.

Doubtless much is owed, likewise, to the Hillsborough County Teacher's Institute, formerly sustained by a distinct organization, but now managed by the County School Commissioner. The office of School Commissioner, when intrusted to suitable hands, is a valuable auxiliary in the work of true educational progress. The present Commissioner is Rev. Solomon Laws, a gentleman well qualified to advance the interests of education.

The report of the Board of Education for 1853 shows a general increase in the wages paid to teachers, and a larger proportion of female teachers employed. During the past year eight school-houses were built in the County. In the schools of last winter were nearly as many female teachers as males—182 females, 185 males. In the summer schools were only eight male teachers. Bedford, Frances-town, Goffstown, Hudson, Lyndeborough, Mont Vernon, New Ipswich, New Boston, Weare, and Wilton, have local school funds, Weare the largest, amounting last year to \$5021 23. Weare also contributed most in board and fuel. 318 districts reported.

NEWSPAPERS.

Half a century ago was started the first newspaper now in existence in the County,—the Farmer's Cabinet. In the past twenty years, newspapers, a score or more, have been ushered into existence ; some of them to live, a few to flourish, and others to die. Those now in existence are established with

scarcely an exception, on a reliable and permanent basis, and are conducted with a degree of tact and talent comparing favorably with any similar association of country papers in the Union. Two are democratic, two whig, one free soil, and five independent of party control, with one agricultural—eleven in all. There is besides a monthly agricultural publication.

AMERICAN AND MESSENGER, Manchester, Whig. Published by Abbott, Jenks & Co., at \$1.00 in advance. This is the largest paper in the County, and is second to none in the ability of its editorials and faultlessness of its typography. J. C. Abbott, editor.

UNION DEMOCRAT, Manchester, Democrat. Published by Campbell & Gilmore, at \$1.50 per year. This is the youngest paper in the County, with the largest circulation. It is ably edited by James M. Campbell.

THE DEMOCRAT, Manchester, Free Soil. Published at \$1.50, by John H. Goodale. This is a paper that has wielded considerable influence. Its editor is endowed with an indomitable perseverance. Its circulation is scarcely surpassed by any of its competitors.

DAILY MIRROR, Manchester, Independent. Published by John B. Clarke. This is a penny paper, the only daily in the County; piquant, liberal and intelligent.

The WEEKLY MIRROR is published at the same office; terms \$1.00.

GRANITE FARMER, Manchester, Agricultural. Published by James O. Adams; terms \$1.00 in advance. General editor, James O. Adams; Agricultural editor, Thos. R. Crosby. This is a valuable publication, designed especially to meet the wants of Hillsboro'

County farmers, whose substantial favor it richly merits.

NASHUA GAZETTE, and Hillsborough County Advertiser, Nashua, Democratic. Published by B. B. & F. P. Whittemore, at \$1.50. It is the oldest of our papers, with one exception, established a quarter of a century since. Its present editor, B. B. Whittemore, is a gentlemanly and intelligent member of his profession.

N. H. TELEGRAPH, Nashville, Whig. Published by Albin Beard, at \$1.50 per year. This paper enjoys perhaps a wider celebrity than any other in the County. Its editor has a rare appreciation of genuine humor, and a rich fountain of "the milk of human kindness" in his bosom.

NASHUA AND NASHVILLE OASIS, Independent. Published at \$1.00, by Dodge & Noyes. It enjoys a good share of patronage, having the largest local circulation.

FARMERS' CABINET, Amherst, Independent. Published at \$1.25, by E. D. Boylston. R. & E. D. Boylston, editors. This paper is 51 years of age, and its senior editor 71. Amid all the competition growing up around, the Cabinet not only holds "its own," but probably yields a larger income than at any previous time.

PETERBOROUGH TRANSCRIPT; Independent. Published by E. H. Cheney, at \$1.00. A very acceptable local and family paper.

FARMERS' MONTHLY VISITER, Manchester, Agricultural. Published by Rowell, Prescott & Co., at \$1.00. Chandler E. Potter, editor. This is an ably managed and interesting publication.

NOTES OF TOWNS.

AMHERST.

This is a highly respectable old town, the shire-town of the County. It was formerly twelve miles square ; in 1794 Milford was taken from it, and Mont Vernon in 1803. In the northern, southern, and western portions of the town the soil is very good. Its inhabitants are mostly engaged in the cultivation of the soil. Amherst sent 140 men to fight the battles of the Revolution ; three fell at the battle of Bunker Hill. In the northern part of the town is a valuable bed of limestone for agricultural purposes ; there is also a superior granite quarry on the town farm.

Statistics.—Population 1613, number of houses 319, number of families 328, number of farms 137 ; value of lands \$214,028, stock in trade \$11,902, inventory \$549,728.

BEDFORD.

This town was incorporated in 1750, and originally called Souhegan East. Nearly one hundred soldiers were in the revolutionary struggle from this town. Bedford contains about 20,000 acres, the western portion a hard but warm and rather productive soil, the eastern a rich intervale of the Merrimack, the southern clayey, the source of much of the brick of which Nashua and Lowell are built. The base of the Uncanoonucks touches its western border, and the Merrimack laves its eastern, while the Piscataquog meanders through the town, furnishing a few good water privileges.

Statistics.—Population 1906, houses 315, families 346, farms 226 ; value of lands \$527,642, stock in trade \$16,305, valuation \$756,512.

The first of these is the fact that the
 human mind is not a tabula rasa, but
 is filled with ideas and impressions
 from birth. These ideas and impressions
 are the result of the influence of the
 environment on the mind. The second
 fact is that the human mind is not
 a passive receiver of impressions, but
 is an active agent in the process of
 knowledge. The third fact is that the
 human mind is not a single entity, but
 is composed of many different parts,
 each of which has its own functions
 and powers. The fourth fact is that the
 human mind is not a static entity, but
 is constantly changing and developing.
 These four facts are the basis of the
 theory of the human mind.

HANCOCK.

The soil of Hancock is various ; sandy, clayey, rocky in the north and west, with fine meadows along its eastern boundary, the Contoocook. It is a good grazing town, and abounds in excellent water. It bears little of the impress of change, in customs or opinions. A quarter of a century has passed here without a law suit ; the postmaster has not been removed since his appointment, 41 years ago, though a member of a political minority. The Congregational Society has had but three ministers. Rev. Reed Page, settled in 1791 ; Rev. Archibald Bur-ess, in 1822 ; Rev. Asahel Bigelow in 1850.

HILLSBOROUGH.

Hillsborough is about the roughest township in the County, with rocks that verify the strongest stories told of this species of New Hampshire hardware. The Contoocook and North Branch furnish several valuable water privileges. This is the native place and family residence of FRANKLIN PIERCE, President of the United States. The old farm house of the place of his nativity, is situated on the old Turnpike, leading from Francestown through Hillsborough Upper Village, near the crossing of the North Branch road, about a mile and a half from Hillsborough Bridge, the terminus of the Contoocook Valley Railroad.

Statistics.—Population 1685, houses 363, families 320, farms 200; value of lands \$351,443, stock in trade \$9,075, factories \$3,200, inventory \$561,163.

MANCHESTER.

The first city in the Granite State, the largest in population, the most effective in productive industry, as well as the youngest of them all, is Manchester, the most extensive depot of the cotton manufac-

ture "in the New World, excepting" only Lowell. Its population, now about 17,000, has grown up in about as many years. Once a locality of miserable sterility, its real estate is now valued at millions. It is bounded about 9 miles by the Merrimack River, which in a distance of one mile furnishes a fall of 54 feet, yielding water power sufficient to run several hundred thousand spindles. The eastern portion of the city is built almost exclusively of brick, while the western abounds in wooden structures, many of which are elegant and tasteful residences.

At Moor's Falls is a small settlement, with a grist, saw and other mills, owned mostly by the Moors.

Statistics.—Population (1850) 13,933, houses 1,787, families 1953, farms 133 ; value of lands \$2,601,266, stock in trade \$510,990, factories \$2,544,100, locks and canals, \$191,000, shares in corporations \$139,978, inventory \$6,795,682.

Company comprises three shops and a foundry ; employs 500 men ; uses 1600 tons pig iron, 600 bar iron, 1200 tons coal, 2500 bushels charcoal, 4000 gals. oil ; turns out five locomotives monthly ; and makes factory machinery sufficient for a mill of 20,000 spindles yearly.

STARK MILLS.

Agent, Phinehas Adams. These mills are three in number, of immense size, and have been about the same length of time in operation. They run nearly as many spindles as the Amoskeag New Mills. An immense business is done in the manufacture of seamless bags, the invention of Cyrus W. Baldwin, Esq. We called at the Counting Room, but were unable to obtain at the time a more particular statement.

MANCHESTER PRINT WORKS.

Capital, \$1,800,000.

Agent of the Mills, Waterman Smith. *Clerk*, Oliver Macy.

Agent of the Print Works, John P. Lord. *Clerk*, Andrew N. Baker.

The mills are two, 440 X 60, with L 70 feet, and 324 X 66, containing together 50,000 spindles and 1221 looms. They employ 1000 operatives, 700 of whom are females ; consume 800,000 lbs. cotton, and 900,000 lbs. wool, in the manufacture of 10,000,000 yards yearly of de laines and cotton goods ; and use 56,000 lbs. starch, 8,000 gals. olive oil. 4,000 gals. sperm oil, 50,000 lbs. oil soap, 700 tons coal, 2000 cords wood, and 1,200,000 cubic feet of gas.

The Print Works employ 400 males, with ten printing machines, and print 9,000,000 yards de laines, and 4,000,000 yards cottons ; using drugs to the value of \$350,000 yearly, and about 6000 cords of wood.

Manchester Gas Light Company, Capital, \$90,000. Incorporated in 1850. Robert Read, *Pres.*; Herman Foster, *Clerk*; J. T. P. Hunt, *Agent*.

Steam Mill, for manufacturing lumber, sawing lathes, box making, &c., David Baldwin, L. W. Noyes, T. W. Little, proprietors. Capital employed, \$24,000. Located at "Janesville." A part of the building is let for turning sash and door making, &c.

Blodgett Paper Mill. Capital, \$125,000. Not yet commenced operations. Will make 8000 rolls paper hangings per day, manufacturing the paper.

Paper Mill, Martin & Goddard, proprietors. Designed to make one and a half tons per day of printing paper.

Iron Foundry. Not yet in operation. To be conducted on a large scale, in connection with a machine shop. J. T. P. Hunt, Cyrus Baldwin, Samuel Fish, A. W. Sanborn, proprietors.

Brass Foundry, Hartshorn & Darling carry on a considerable business in brass and copper working.

Silver Spoon Manufactory, Dunlap & Parker. Other manufacturing enterprises, of considerable moment, are in embryo, and will soon be developed.

The first part of the book is devoted to a general
description of the country, its climate, soil, and
resources. It is a very interesting and useful
work, and one which every student of geography
should read. The author has done his best to
give a full and accurate account of the country,
and his work is well received by all who have
read it. The book is well written, and the
language is clear and concise. The illustrations
are well executed, and the book is well bound.

Few houses more impress the traveller with a sense of tranquilizing quiet and genuine, home-like comfort, than the City Hotel. Its rooms, about 100 in number, are ample and airy, its bedding cleanly and sleep-provoking, its table bountiful and luxurious, and its landlord urbane and intelligent. It is excelled by no house in the County.

The soil in this town is mostly a sandy loam. The Souhegan, running through it, furnishes excellent water power. This place is the present terminus of the Peterborough & Shirley Railroad. The railroad bridge near the terminus is one of the greatest works of art in New Hampshire, spanning a weary distance from bluff to bluff, high above the swift waters of the Souhegan.

The first of these is the fact that the
 system of taxation is not uniform
 throughout the country. In some
 places the tax is high, in others
 it is low. This is a great
 disadvantage to the system, as it
 creates a great inequality of
 burden. The second is the fact
 that the system is not based on
 the ability to pay. In some
 places the tax is high, in others
 it is low. This is a great

MILFORD.

This town situated on the Souhegan River, with
a productive soil and good water power, has recent-
ly grown into considerable importance ; and is es-
pecially noted for the sobriety, industry and thrift
of its inhabitants, being probably the freest of any
town in the County from the influence of intoxicat-
ing liquors. From this cause its prosperity may in a

great measure be attributed. No rum shop in the place.

The first part of the book is devoted to a general survey of the history of the subject. It begins with a brief account of the early attempts to explain the phenomena of life, and then proceeds to a more detailed consideration of the various theories which have been advanced from time to time. The author's object is to show how far we have advanced in our knowledge of the subject, and to point out the difficulties which still remain to be solved.

NASHUA.

This town, called Dunstable till 1836, originally embraced a large territory. The present town of Nashua belonged to Massachusetts, till the division line was settled in 1741. Its soil is mostly light and sterile, and of little intrinsic value ; its wealth is derived almost wholly from extensive manufactures of various kinds, all of which have grown up in the past thirty years. No town in the State has a more varied range of manufactures, or is benefitted by a more productive industry. The power employed is both water and steam ; the Nashua Manufacturing Company's Mills, being operated by the water of the Nashua, which has a fall of 36 feet in about two miles. It is one of the pleasantest manufacturing villages in New England.

Statistics.—Population 722, houses 144, families 152, farms 67 ; value of lands \$167,026, stock in trade \$7,200, factories \$200, inventory \$255,256.

[NOTE.—An ugly error occurred in page 71. The *statistics* of the several towns are accurately corrected on a separate sheet, and may be relied on as perfect transcripts of official census and valuation returns. It will be seen that the statistics of Mont Vernon, (by a hasty transposition) were omitted in the notice of that town, and transferred to Nashua, the next town in order. Below we give the proper statistics of Nashua :

Statistics.—Population 5820, houses 950, families 1058, farms 67 ; value of lands 226,421, stock in trade \$244,078, factories \$627,800, corporation shares \$108,725, inventory \$2,427,648.]

It is a well known fact that the human mind is not a blank slate at birth, but is filled with a variety of impressions and ideas which are the result of the influence of the environment upon the senses.

THE HUMAN MIND

The human mind is a complex organ which is capable of receiving and storing a vast amount of information. It is the result of the interaction of the senses with the environment, and it is the source of all our thoughts and actions.

THE SENSES

The senses are the organs which receive information from the environment. They are the eyes, ears, nose, tongue, and skin. Each sense has its own special function, and they all work together to provide us with a complete picture of the world around us.

THE MIND

The mind is the faculty which receives and stores information from the senses. It is the seat of our thoughts and feelings, and it is the source of all our actions. The mind is a complex organ which is capable of receiving and storing a vast amount of information.

NASHVILLE.

This town, situated mostly on the north side of the Nashua river, was set off from Nashua in 1842. It possesses a light soil, easily cultivated and susceptible of being made quite productive. The village abounds in eligible building spots, and contains many well situated and tasteful residences. The interests of this town are so interwoven with those of Nashua, that separate notices are almost impracticable. The Charitable Orders we have located in Nashua, because the halls are there. The Union Athenæum we have noted there, because its book depository is there, and most of its stock owned there. The Gas Light Company is managed in Nashua ; but the Pennichuck Water Co., we place in Nashville, though a large share of the stock is held in Nashua, as it owes its origin to the "Nashville Aqueduct Co."

JACKSON CO.

Horace T. Robbins, *Agent.* R. W. Lane, *Clerk.* Incorporated in 1830. Mill No. 1 has 6,656 spindles and 206 looms and manufactures No. 14 sheetings, 37 and 46 inches wide ; No. 2 is also employ'd in the manufacture of sheetings, and 30 in. shirtings, and runs 5,888 spindles and 188 looms. There are

37 tenements for boarding purposes, for the agent and the clerk. The Company has an ample saw and grist mill, connected with their dam, rented by Roby, M'Questen & Co.

The number of operatives at present employed is not far from 440, of whom all but about 90 are females. This company uses 4000 bales of cotton yearly, averaging something over 400 pounds each, and making an aggregate of about 1,650,000 lbs. of which are manufactured 5,000,000 yards of cloth.

PENNICHUCK WATER WORKS.

Incorporated 1853. Capital, \$100,000. This company, just organized, propose to supply Nashua and Nashville with water from the Pennichuck Brook, through a reservoir on the Hill north of the village.

NEW IPSWICH.

New Ipswich was early settled, and has always been noted for the industry, enterprise, intelligence and refinement of its people. This town sent sixty-five men to Bunker Hill. The soil is a clayey loam, quite productive compared with some portions of the County. The water is good, and water privileges are abundant and valuable, supplied mostly by the Souhegan. A cotton factory was put in operation here in 1803, probably the first in the State.

Statistics.—Population 1877, houses 342, families 363, farms 113 ; value of lands \$437,546, stock in trade \$25,124, factories \$70,190, corporation shares \$32,694, inventory 736,429.

NEW BOSTON.

New Boston possesses a strong and fertile soil, on which now stands few of the forest monarchs whose stalwart limbs have wrought out much of her productive wealth. The scenery of New Boston is varied and picturesque, partaking largely of the Alpine character, with rocks piled on rocks and hills on hills. There are two villages, the lower and principal of which lies snugly embowered in a deep and narrow valley, through which the noisy Piscataqua winds its way. Overlooking it, stands the respectable and matronly original, on a level and grassy niche in the steep hill side, from which a tall spire shoots sky-ward.

Statistics.—Population 1476, houses 278, families 290, farms \$243 ; value of lands \$379,975, stock in trade \$18,387, inventory \$561,656.

Justices of the Peace, Henry B. Swett, David Curtis, F. Grimes.

“Little Windsor” we are unable to daguerreotype further. We tried to get there, but couldn’t find the way conveniently; we endeavored to get a letter to the Postmaster, till we learned there was no postmaster; and then we wrote the Town Clerk, but have as yet been unable to ascertain whether there is positively such an officer.

J. S. MILLER & CO.,

WOULD respectfully announce to the citizens of Nashua, Nashville and vicinity, that they have taken the rooms formerly occupied by E. M. HINES, opposite the Town House, where they will be happy to accommodate his friends and the "rest of mankind," with any thing in their line of business. Having a superior sky light, and by using the best materials, they feel confident that they can take pictures that will not fail to suit the most fastidious, and will warrant to be as good as can be had elsewhere. No person will be expected to take a picture from this establishment unless *perfectly satisfied*.

Constantly on hand and for sale,

Gold Locket, Pins, Rings, Cases,
 Plain and Fancy, and Frames of all descriptions.

COME ONE. COME ALL.

Likenesses taken of invalids and deceased persons,
 at their residences, if desired.

Portraits, Miniatures and Paintings Copied.

Pictures taken in cloudy *as well as* in fair weather,
 except small children. Perfect satisfaction
 given in all cases or no charge made.

Instruction given in the Art.

Gallery open to visitors through the day.

Remember the place, opposite the Town House.

BUY YOUR GOODS CHEAP.

THE WEST INDIA GOODS STORE of the New England Protective Union, Division No. 10, at No. 17, Factory Street, is now in successful operation. The business of this Store is transacted in such a manner as enables the Union to sell Goods at prices much lower than those who buy in small quantities, and on credit. They would particularly invite the public to call, try, and see if these things are not so—see if they cannot make a

SAVING OF TEN PER CENT.,

and get better goods at that.

DENTISTRY, DR. LOCIE

Wishes to call the attention of those who are in need of Teeth, to

ALLEN'S NEW METHOD,

Specimens of which are seen at his office, and what is better, in the mouths of several who are now using them, to whom reference will be given, if desired. Teeth inserted in this way are more natural, more perfectly fitted to the mouth, and possessed of greater strength. The editor of the Dental Recorder, of this method, says : "*We are constrained to believe that it is destin-d to supersede the old mode altogether.*"

All operations on Teeth, Filling, Regulating, &c., attended to in his usual careful and thorough manner, which is too well known in this vicinity to need comment—always warranted.

A GREAT INVENTION.

MERRILL & TUPPER'S
PATENT SPIRAL SPRING BEDSTEAD

Gets the uniform testimony of all who see it in favor of its

UNDENIABLE SUPERIORITY.

Prominent among its advantages, is the simplicity of its construction, and the ease with which it is taken down. The proprietors offer to show that it can be taken apart and put together again in sixty seconds. The rails are fastened to the posts by cast iron clamps screwed upon each, (altogether unlike the Putnam or any other bedstead,) which so interlock each other that a metal key dropped between them effectually confines the posts and rails. The canvas that covers the springs is buttoned upon the side rails, and can be easily taken off.

It is the most portable thing out. The ordinary bed either doubles not at all or only once; the springs of this can be doubled to occupy a space six-inches deep by a foot in width.

As a bed it is improved. The springs are slightly elevated at the head, and are otherwise adapted to sustain equally and comfortably the weight of weary sleepers. Its elasticity is unsurpassed.

Orders received at their Shop in Nashville,

OPPOSITE THE INDIAN HEAD HOUSE,
and promptly attended to.

No bed of their invention allowed to be manufactured without the names of the proprietors, "MERRILL & TUPPER," stamped upon it.

MUSICAL INSTRUCTION,

PIANO AND ORGAN PLAYING, HARMONY, THOROUGH BASE, AND VOCAL MUSIC.

E. T. BALDWIN,

Having returned to Manchester, to make it his permanent residence, respectfully announces to the citizens of said place and vicinity, that he has taken rooms in the

MERRIMACK BUILDING,

Where he will give instruction in the above accomplishments. He would also state, that for the past few years, he has spared neither expense nor pains in his efforts to obtain a correct knowledge of the principles of MUSIC, and of TEACHING, and hopes to afford satisfaction to those who may favor him with their patronage.

Applications to be made at Wm. Young's Bookstore, or at C. Baldwin's, 21 Stark Street.

N. B.—Mr. B. having established himself as a Teacher in Manchester, has made arrangements with dealers in, and manufacturers of Pianos in Boston, thereby enabling him to keep on hand, and to furnish all who may wish Pianos of the first quality, (as he intends keeping none else) as cheap as can be bought in Boston, thus saving the trouble and expense of a tour to the city. Pianos which he offers for sale he will warrant for one year, and if within, or at the expiration of that time, they fail in giving satisfaction, or are not all they were recommended to be, they can be exchanged or the money refunded.

A MUSICAL INSTRUMENT FOR EVERY FAMILY AND CHOIR!

Reference will be given to our first Musicians in the favor, and the awards of examining committee at fairs, place them above competitors. No pains is spared in their construction, and a written guarantee will be given to all of their durability. All are invited to call before purchasing.

B. F. TORRE & CO.'S Improved Eolian Seraphine, Melodion AND REED ORGAN,

ON THE VALUABLE PRINCIPLE OF

CARBART'S PATENT.

IN VIEW of the well established fact that all are susceptible of Musical Cultivation, and as it has become one of the elements of Common Education, it is a great desideratum that each family should obtain the best Parlor Instrument for its cultivation and practice: the subscribers submit to the Musical Public a beautiful style of MELODION, SERAPHINE, and REED ORGAN, the celebrated Carbart's Patent, which for elegance of manufacture, and unrivalled beauty of tone, is second to none desirable in the market and a credit to the Player.

They also keep an assortment of PIANOS, selected from the best Boston Makers, warranted to every respect equal in quality, and lower in price than can be had in the vicinity, thereby saving something to the purchaser, besides a journey to the city.
